Glebe Hill Bushland Reserve Activity Plan 2021-2030 - Survey

SURVEY RESPONSE REPORT
13 June 2019 - 29 August 2024

PROJECT NAME:
Glebe Hill Bushland Reserve Activity Plan 2021-2030

BANG THE TABLE engagementHQ

SURVEY QUESTIONS

Q1 My comments and ideas on what should be included in the Glebe Hill Bushland Reserve Activity Plan 2021-2030.

Screen Name Redacted 8/14/2020 05:45 PM	Running trail
Screen Name Redacted 8/15/2020 08:23 AM	Running/walking trails
Screen Name Redacted 8/16/2020 12:16 PM	Future plans or ideas for developing connecting trails. A connecting trail into knopwood hill Reserve would be good. A connecting path or gravel trail alongside pass road to allow riders, runners and walkers to safely connect to Mt Rumney and the meehan Range or old coach Road. improvement on the bottom loop trail above the quarry. Comes out on Norfolk Lane,
Screen Name Redacted 8/16/2020 01:13 PM	Ways in which to link it to the other local reserves in walking, cycling and running routes, such as Mornington Hill and the Rokeby Hills areas. A bit like the Charles Darwin loop but linking the 3 areas and incorporating the foreshore track.
Screen Name Redacted 8/17/2020 06:25 PM	I'm a local trail-runner; it is perpetually disappointing that despite all the bush-land around the periphery the vast majority is inaccessible (no access, and/or private land). I live in Oakdowns, and the alternatives are the Rokeby hills that border Tranmere, complete with a parking-lot's worth of burned out car bodies, and Glebe Hill. I grew up being able to play in local bushland, and it's heart-breaking that this is not an option for kids now. I would love to see Glebe Hill remain that option. It's not a large area; I'd probably prefer that it be mainly aimed at foot traffic.
Screen Name Redacted 8/19/2020 01:16 PM	Minno Street area to become a children's play area with steps and a properly formed path from Skyline Drive down to the park. I would like to see a natural play area with huts and balance beams made from tree stumps, bring our kids back to nature not a shiny metal playground
Screen Name Redacted 8/19/2020 07:35 PM	Include on lead dog walks for the health & wellbeing of all users & include dog poo bags & bins. Also a map of trees, bushes, grasses & native animals. Signage of length of tracks & facts of history of the area & surrounds. Place seating in shady areas. Include toilets.

Check Monique st access to the mobile phone tower and beyond to the 5 strand wire fence which is down allowing ingress into glebe hill reserve for trail bikes -tracks visible -on and up the hill. I stood the fence up in a rough manner but maybe a rock barrier may be more appropriate.M.B.Roberts 8 Minno st Howrah.

An area for the community to have picnics and bar-b-ques with all the appropriate services eg shelters ,toilet facilities , pizza ovens, gas bbq's, childrens' play equipment etc preferably on the western side of the hill facing the river. Parking for the purposes of people who want to picnic and/or those who want to walk the various tracks. A great example of this concept is Legacy Park on the Queen's Domain. Entrance could be from the Vienne Drive entrance in Howrah.

8/25/2020 06:12 PM

An educational program/signs highlighting the special plants of the reserve, in particular the chocolate lily and Eucalyptus risdonii. Also specific management of these plants, such as a low intensity burn.

Some thoughts: 1/ We have witnessed impacts on wildlife of dogs not under effective control. The telltale of this is repeated excited yapping. We have had an injured wallaby somehow get over our fence after having sustained serious injury while being pursued by 2 dogs. The human who had taken those 2 dogs into the bush remained hidden in the dusk light quite a distance away. To prevent this happening too often, I would recommend that it be made a dog on leash area. 2/ we have also been woken in the middle of the night too often by trial bikes on the existing track system. A drastic rethink is needed for the updated plan to limit this kind of illegal and threatening behavior. Consideration needs to be given to gates and track surfacing to deter this nocturnal disturbance.

Accessible, discreet walking trails, that are built with minimal impact on the environment. Consolidation of the trails that are pre-existing.

Screen Name Redacted
9/08/2020 01:42 PM

Mountain bike and walking trail

Screen Name Redacted

1. Fuel reduction strategy to reduce threat of bushfires in the area. 2. A Walking track would be a fabulous addition to the area, as many families are moving to the area. As it isn't safe to walk along Pass Road, this would be a benefit to everyone! (A walking path along

	Pass Road would be a GREAT idea too!!)
Screen Name Redacted 9/09/2020 11:03 PM	Nature walks and reserves only. No development.
Screen Name Redacted 9/09/2020 11:30 PM	Keep the walking tracks as is, allow dogs under control but off lead
Screen Name Redacted 9/14/2020 09:02 PM	Continue the conservation of flora and fauna.
Screen Name Redacted 9/15/2020 06:45 AM	Maybe a cleared up track with parks throughout the track. So many people use the tracks and I think it's not a good idea. Aboriginals also lived in the land, and it's there land. I'd be disappoint if it all dissapared
