South Arm Oval Master Plan Design Review

SURVEY RESPONSE REPORT

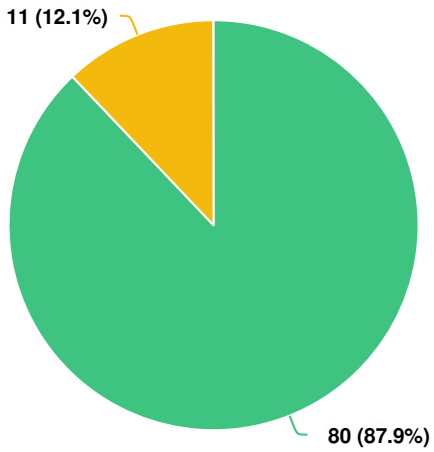

13 June 2019 - 29 August 2024

PROJECT NAME:
South Arm Oval Master Plan Design Review

BANG THE TABLE engagementHQ

SURVEY QUESTIONS

Q1 Do you support the development of a men's shed in the location shown on the South Arm Oval Design Review Plan?

Question options

Yes No

Mandatory Question (91 response(s))
Question type: Radio Button Question

Q2 Do you have any further comments regarding the men's shed proposal?

Screen Name Redacted 6/11/2020 02:49 PM	I think this is a much needed facility and the positioning looks ideal.
Screen Name Redacted 6/11/2020 07:56 PM	I'm ok for it to be bigger.
Screen Name Redacted 6/12/2020 01:54 PM	Provided there is appropriate noise attenuation
Screen Name Redacted 6/12/2020 05:48 PM	I had a lot to do with Sorel men's shed noise was a big issue, putting shed therewould only inflict more pain to Calverton road residents.
Screen Name Redacted 6/12/2020 08:51 PM	Do not see this as appropriate for the area
Screen Name Redacted 6/14/2020 05:20 PM	Away from kids play areas
Screen Name Redacted 6/15/2020 08:47 PM	I do not think this is a good location. Additionally, it should be a more inclusive item and not limited to "men's" use.
Screen Name Redacted 6/15/2020 11:32 PM	This needs to progress asap.
Screen Name Redacted 6/17/2020 07:51 AM	I don't think this is inclusive of all community members or needed and I do not like the location or size. I see it has also been moved to a location that was suppose to be native vegetation and is much larger than the original document shows. I prefer the vegetation rather than putting too many little buildings here and there on the oval. I also see the old master plan is still available and deceiving as it shows a different location and smaller shed. The new proposal shows a much much larger shed and I am afraid some people will be confused on which document is the latest. I live on an adjacent street to the oval and walk past here everyday and a big shed just dedicated to men (which seems very bold considering these times of heightened awareness to equality) would be a huge eye sore. I do not support the idea at all.

Screen Name Redacted 6/18/2020 01:52 PM	It is a fantastic idea
Screen Name Redacted 6/20/2020 12:52 PM	The proposed location and scale of the shed, and the noise it will generate will seriously impact on the amenity of my adjoining property. I supported the former design which proposed to expand the green belt in this location.
Screen Name Redacted 6/29/2020 12:48 PM	The Men's Shed will become an integral part of this community recreation hub. Along with the playground, South Arm Oval will be where Peninsula families and all generations can gather, play, create, be entertained and importantly, give and receive social interaction and support. It will become a complete community area that all our Peninsula folk and Council will be proud of. There is need and much support for this facility and the Men's Shed group is actively working to make this design and location work on all levels - for community and residential neighbours, for ease of access and community partnerships.
Screen Name Redacted 7/01/2020 02:08 PM	Parking area appears to be quite small.
Screen Name Redacted 7/04/2020 02:22 PM	Hopefully it’s assessable to men of all ages, not just retired . Many dads at home these day
Screen Name Redacted 7/04/2020 03:17 PM	Positive move
Screen Name Redacted 7/04/2020 05:49 PM	Don't mind but sports activities can do this South Arm Recreation who live in South Arm and Opossum Bayy
Screen Name Redacted 7/06/2020 12:07 PM	This will be a wonderful thing to have in our community
Screen Name Redacted 7/06/2020 12:27 PM	It will be good to have a dedicated space for men to meet locally.
Screen Name Redacted 7/06/2020 12:56 PM	It looks rather large. Is it too big. We want walking areas and plenty of it.
Screen Name Redacted	Be an added bonus for South Arm quite a few older men down this

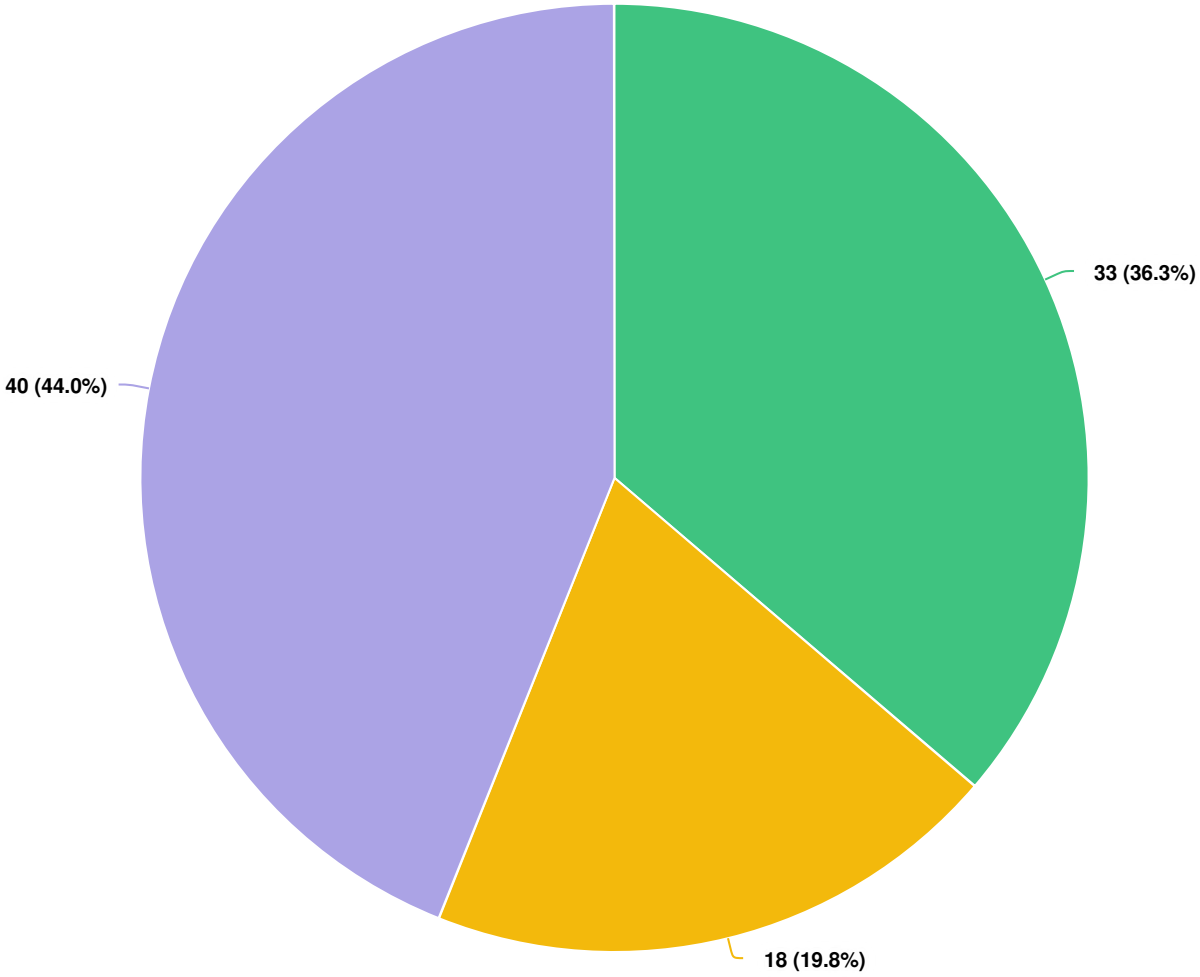

7/06/2020 01:44 PM	would love to be involved, great for their mental health.
Screen Name Redacted 7/06/2020 03:47 PM	A great asset to the local company
Screen Name Redacted 7/06/2020 04:10 PM	Too close to homes. Should be part of community centre.
Screen Name Redacted 7/06/2020 05:02 PM	I think it is important to locate it close to amenities and the community centre given that many patrons will be elderly.
Screen Name Redacted 7/07/2020 08:34 AM	it will be good for the men to have a location to meet and do local help
Screen Name Redacted 7/07/2020 04:43 PM	Make sure there is adequate lighting - it’s very dark in that area, without street lights.
Screen Name Redacted 7/08/2020 02:06 PM	this will be a great addition
Screen Name Redacted 7/08/2020 04:40 PM	Great idea , bout time this happened , why it's taking so long I don't understand, surely people aren't complaining about this
Screen Name Redacted 7/11/2020 06:10 PM	It is good to see the location near the toilets. Council should ensure that access locations to the shed and congregation areas around the mens shed re facing the oval - to mitigate noise impacting the nearby residents. Also, it should be appropriately fenced with native plantings in keeping with the area
Screen Name Redacted 7/11/2020 06:30 PM	It is good to see the location near the toilets. All access points to and congregation areas of the mens shed should be facing the oval to mitigate noise on nearby residents. The mens shed should also be appropriately fenced with native plantings
Screen Name Redacted 7/12/2020 09:35 AM	Not opposed to having such a facility, but the addition of a whole new building seems a wasteful use of public funds given the under utilisation of the existing buildings in the community prescinct. Could the community centre not be partially repurposed, considering the small number of hours overall the shed will be utilised.

Screen Name Redacted 7/13/2020 12:50 PM	As the President of the South Arm Peninsula Men's Shed I have been closely involved in the process which has resulted in locating the shed in its current position. There are numerious reasons for its preferred location principally resident impact, its lack of impact on the amenity of the oval precinct and convenience for the operation of the shed. Council are well aware of our views as to the suitability of the proposed location and have been very supportive of our decision.
Screen Name Redacted 7/15/2020 03:24 PM	Excellent idea and location
Screen Name Redacted 7/18/2020 08:54 AM	Do not let the same selfish group who bought property adjoining a community oval and now treat it as "their own" back yard hold this great project for years up as they did with the skate board park and increased the eventual cost to tax payers.
Screen Name Redacted 7/18/2020 09:46 AM	Do not let the same handful of selfish people who bought property adjoining a community oval { that was donated by a local family for community use} and now treat it as "their" backyard hold this project up and cost tax payers unnecessary money as they did with the skateboard park.
Screen Name Redacted 7/19/2020 05:17 PM	I think the Men's shed is a great community idea and should go ahead. I don't think we should get too caught up in the politics of where it goes or how big it is.
Screen Name Redacted 7/20/2020 09:20 PM	No
Screen Name Redacted 7/24/2020 01:05 PM	Will be an asset to our community - bringing people together which may not otherwise have a community connection
Screen Name Redacted 7/26/2020 09:53 AM	Due to the large amount of existing building footprint within the master plan precinct , that appears to be majorly underused, it would be hard to justify the addition of yet another building of minimal use within the small precinct.
Screen Name Redacted 7/28/2020 07:17 AM	no

Screen Name Redacted 7/28/2020 03:37 PM	NO
Screen Name Redacted 7/29/2020 05:28 AM	no just get it done will be awesome for the community

Optional question (41 response(s), 50 skipped)
Question type: Essay Question

Q3 Which noise mitigation option do you believe is the most appropriate for the site?

Question options

- Earth berm with paling lap fence
- Sound mitigation wall
- No additional noise mitigation works (existing conditions to remain)

Mandatory Question (91 response(s))
Question type: Radio Button Question

Q4 Do you have any additional comments?

Screen Name Redacted 6/11/2020 02:49 PM	My understanding is that the skate park has the strong support of the community and should remain as is. Any available funds that council have to spend should be used to enhance other aspects of the master plan.
Screen Name Redacted 6/12/2020 07:46 AM	I live next to the oval and don't have an issue noise
Screen Name Redacted 6/12/2020 01:54 PM	We are somewhat dismayed that the option of No additional noise mitigation option is included in this survey when the option of doing nothing is not an option given the rumors regarding the cost {$110,000}being circulated around the community.
Screen Name Redacted 6/12/2020 05:48 PM	One resident moved due to noise, one other completely broke down from stress, I feel sorry for them as I hear the noise from Bisdee St.
Screen Name Redacted 6/12/2020 08:51 PM	This skate park should never have been built here, it has ruined so many lives.
Screen Name Redacted 6/15/2020 08:47 PM	We live in very close proximity and feel the large wall (option 3) would be very obtrusive to us and our neighbors.
Screen Name Redacted 6/15/2020 11:32 PM	It is my opinion there should be no further expense dedicated to the skate park project. A mitigation wall could facilitate anti social behaviour, and I doubt any further earth works or fencing would appease nearby residents that chose to live beside a public park.
Screen Name Redacted 6/17/2020 07:51 AM	A wall would be a massive eye sore. Larger vegetation than previously planted should be planted as the current vegetation is still tiny and will take many years to mature to help the noise.
Screen Name Redacted 6/18/2020 08:56 AM	I am disgusted and disappointed that Council is allowing 3-4 residents to dispute the reports and findings that our rate payer money has paid for over the years of the skate park proposal. We know the noise levels of the skate park come in well under the limits. The Council is planning to spend up to $300,000 on this waste of money proposal - meanwhile youth engagement and other programs remain underfunded, while the council implements a recruitment freeze. Ald

	Richard James and Ald Walker would be better off speaking with the 3-4 residents and reassuring them of the benefits of the skate park, instead of throwing petrol on tiny coals. During COVID, I was at the South Arm Oval every day, practising my mountain biking skills on the grass and I had the great displeasure of meeting one of these residents, who chased me around the park and would not leave me alone, and only left when I told him I was legally allowed to be there and asked him was he going to continue harassing a woman on her own in the park? I was very close to calling the police and by pandering to these people you are rewarding this type of behaviour. If you proceed with any noise mitigation proposals I will make a lot of noise myself and I will make sure that every single person in my networks and in the community knows who supports this blatant waste of money and we will campaign against it. I am sorry that frontline council staff have been bullied by these despicable people, because I know how it feels, but folding to them is rewarding them. These people get through life doing this to people, it is their modus operandi. They love name dropping and thinking they are people of influence because they know a few 'has beens.' Please do not spend another cent of ratepayers money rewarding bad behaviour.
Screen Name Redacted 6/18/2020 01:52 PM	Only installed if not to the detriment of the playground space
Screen Name Redacted 6/20/2020 12:52 PM	I did not support the original skate park proposal, as an adjoining landowner. The noise it creates is continuous. I do not believe that any noise abatement strategy will work. And any berm/fencing that is installed will decrease the public visibility of the activities that take place in the skate park and will probably increase the potential for mischief and vandalism.
Screen Name Redacted 6/21/2020 04:35 PM	the skate park is fantastic, no problems. only noise kids enjoying themselves. i have been to the skate park and never encountered excess noise or any problems
Screen Name Redacted 6/22/2020 02:38 PM	I live at 6 Calverton place and haven't heard any noise inside or out from the skate park
Screen Name Redacted 6/29/2020 12:48 PM	1. Need: there is no regulatory requirement for any mitigation. 2. Cost/benefit: the significant cost that either of these options will require, including design, more consultants reports and construction appears to be for the sake of a small number of residents. There is no benefit to the wider community. 3. Cost/benefit: as per point 2, it is logical to assume that significant funds poured into mitigation will be

	reduced from other community projects that will benefit a greater number of residents. Think families with the playground, the much needed Men's Shed for starters. No-one will want these projects to be in jeopardy. 4. Aesthetics: this skate park has been crafted into a community hub so well, it feels part of the landscape. It sits amongst the new trees and mulched mounds without imposing a huge lug of concrete on the land or on the eye. When you get some of our senior citizens, previously against the project now stating it's one of the best things to happen to South Arm, you know it feels, and is, right, just as it is now. With a high wall or mound of whatever, you will lose the open, friendly feeling and indeed make those using the skate park feel like the naughty kids, hidden away. They're not. 5. Passive security: with any sort of imposing wall/mound whatever, there will no longer be easy sight around the area. 6. Just don't, please don't, muck up what is such a pleasant, much-loved place for our kids and families and all us older ones too.
Screen Name Redacted 7/01/2020 02:08 PM	Earth Berm would be my second choice. Definitely need Sound Mitigation.
Screen Name Redacted 7/02/2020 04:05 PM	Please take into account that many residents who are not impacted by the noise may opt to select no mitigation as to not spend more money on the project. However CCC should take into account the extreme distress caused to a number of residents surrounding the skate park.
Screen Name Redacted 7/04/2020 01:24 PM	We use the skate park regularly with a four and six year old. Thankyou it is a wonderful facility.
Screen Name Redacted 7/04/2020 01:29 PM	The skate park is a much loved addition for playing and socialising in South Arm.
Screen Name Redacted 7/04/2020 02:22 PM	Let kids be kids , there’s no better sound than children & youths having a fun time in a controlled environment.
Screen Name Redacted 7/04/2020 05:49 PM	Floral Natives on the back of fence
Screen Name Redacted 7/06/2020 12:07 PM	I personally feel we don’t need anything. I feel it is better to have the area open rather than enclosing it. The reason being that better to see what’s going on

Screen Name Redacted 7/06/2020 12:27 PM	Option one asthetically more appealing
Screen Name Redacted 7/06/2020 12:56 PM	I guess whichever works best. If the wall is not too ugly and intrusive I presume it would be best. I feel very sorry for Calverton Place dwellers
Screen Name Redacted 7/06/2020 01:44 PM	I dont have a comment because I really don't know how noisy it is.
Screen Name Redacted 7/06/2020 02:36 PM	As I don’t live close by I am not really able to comment. However restricting visual access would not be a good thing. Are there many complaints? Or is this a minority issue?
Screen Name Redacted 7/06/2020 03:47 PM	The neighbours have been against it from the start and need to learn to live with the development, especially as it is fully compliant with the conditions.
Screen Name Redacted 7/06/2020 04:10 PM	Use whatever needs to be used to stop sound travelling to people’s homes.
Screen Name Redacted 7/06/2020 05:02 PM	I don't like the idea of hard barriers between areas. Perhaps night time use can be time limited to prevent undue levels of neighbour annoyance (I note that I don't live anywhere near the park so am not aware of the extent of the problem)
Screen Name Redacted 7/06/2020 06:06 PM	The very best noise mitigation is required. I am a nearby resident. The noise impacts are severe. We cannot use our upstairs bedroom due to the noise in summer that bounces off our roof and into our bedroom. The noise is audible in other habitable rooms in our house. My office is inconveniently set up at the back of the house for this reason and my wife uses noise cancelling headphones to work due to the noise. The decision to build a raised skatepark so close to residences in a low background noise environment with no noise attenuation is astounding and has created a completely foreseeable environmental nuisance. The facility is non compliant in a residential area. The RMPAT warned that noise would be an issue and this was backed by 2 noise experts in evidence. That my residence is in a village zone, does not stop the harm or make it any different to the harm I would experience if I were classed 'residential'. The facility is tucked into the corner of an oval where it is only visible to the same

	residents who are most impacted by the noise. Impacted residents are the only people able to do 'passive surveillance'. Therefore any mitigation has to prioritise the noise. It is the abrasive and gunshot-like noise of skateboards on concrete that should be the primary consideration. Doing nothing should not be an option and the opinion of those not impacted should not be given weight. If I lived in a residence not impacted by the noise, I would most likely vote to do nothing too. The impacts of the decisions made to date are being borne disproportionately by nearby residents and we need support and reasonable decision making that considers everyone.
Screen Name Redacted 7/06/2020 08:55 PM	It was difficult to make a decision about this as I am not a next door neighbour. My decision was based on the fact that the skate park currently meets all planning conditions and both the other options would be very expensive, which under current financial circumstances can not be justified.
Screen Name Redacted 7/07/2020 03:39 PM	We live in 45 Harmony Lane - right behind the park and do not believe the noise is an issue or concern at all. No further noise reduction is required. Spend the money on a playground for the kids
Screen Name Redacted 7/07/2020 04:20 PM	As stated, all noise mitigation has been met by council, why should we as rate payers and community members have to spend hard to come by money to appease the small minority within the community, council is aware it is around 6-8 adjoining residents who are making a noise about this issue. Council needs to be extremely careful if you decide to appease these residents. It will set a precedent for other minor issues to become major issues for council. The park meets all guidelines, spend the money on the kids play ground or basketball hoop. Great work on meeting all sound level requirements, now let’s just let our community enjoy this facility. I vote NO to any noise attenuation at the skate park
Screen Name Redacted 7/07/2020 04:43 PM	I spend a lot of time there and it’s not noisy at all.
Screen Name Redacted 7/07/2020 06:42 PM	I have been down to skate ramp lots of times just to watch the kids play and I don't think there is much noise at all.
Screen Name Redacted 7/08/2020 09:42 AM	I feel the earth berm with paling lap fence would visually fit the surroundings and general South Arm area substantially better than a 3.5m high wall.

Screen Name Redacted
7/08/2020 02:06 PM

enough money has already been spent on this subject now is the time to put the money elsewhere

Screen Name Redacted
7/08/2020 04:40 PM

There is hardly any noise from the park , just children having fun ,there would b more noise coming from the school . A couple of whinging , mean spirited people complaining of children having fun , can't believe they r being listened to

Screen Name Redacted
7/10/2020 10:09 PM

Fantastic for the youth of South Arm, to late for my son who had to hitch hike to other skate parks around Hobart (NOW 40 YEARS OLD) Great council project

Screen Name Redacted
7/11/2020 06:10 PM

An earth berm is all we have asked for throughout the skate park process for many years. We are desperate! The noise is horrendous, it dominates the area and is so instrusive it requires modified behaviour inside our amenity. Our outdoor area facing the skate park is unusable when skate board impacts are occuring. The earth berm and fence will also provide more privacy as all our north facing living area, kitchen and bedroom have direct line of site to the skate park. We also ask Council consider raising the overall berm/fence height by say 750mm-1000mm as our outdoor areas/north facing living space is approx. 900mm from natural ground level. The earth berm with paling fence must be built! It will provide the balance in design that should have always been included - the kids get a facility and impacted residents are considered. A positive and considered approach. The berm and fence is the most appropriate form of noise attenuation and the design fits well with the surroundings.

Screen Name Redacted
7/11/2020 06:30 PM

The earth berm is all we have asked for throughout the skate park process. We are desperate! The skate impact noises are horrendous and of such an instrusive level that it requires modified behaviour inside our amenity. Our outdoor amenity facing the skate park is unusable when skate board impacts are occuring. The earth berm will also provide privacy as all our north facing kitchen, living area and bedroom have direct line of sight with the skate park. The earth berm with paling fence must be built! It will provide the balance in design and should have always been included in the project - the kids get a skate park and impacted redidents are considered. A positive approach that considers all stakeholders. We request that Council consider increasing the overall earth berm/fence height by approx. 800-1000mm, as out outdoor and living areas facing the skate park are 900mm above natural surface level- therefore increasing the height will provide better privacy and possibly better noise attenuation

	to nearby residents
Screen Name Redacted 7/12/2020 09:35 AM	The preferred option is earth berm with vegetation screen, as indicated above but not reflected in the selectable options.
Screen Name Redacted 7/13/2020 12:50 PM	As the current tree plantings grow the question of noise will abate. Any other structures will be unsightly and not guaranteed to to have any marked effect. Any further expenditure would represent a misuse of ratepayer's money.
Screen Name Redacted 7/18/2020 08:54 AM	Same group still griping over the skate board park and will never cease , council should have told them to pull their heads in long ago definitely need to do it now , they have new fences at tax payers expense enough is enough is too bloody much they will never move on.
Screen Name Redacted 7/18/2020 09:46 AM	Same group still pissed off the skate board park ever came to fruition, they have had fences built at tax payer's expense but will never be happy as long as it exists the community in general has had a gut full of them , the council should have told them to pull their heads in years ago definitely time now.
Screen Name Redacted 7/19/2020 05:17 PM	I think Council needs to harden up and tell the residents who are complaining that it's just too bad. The benefit for the community is far greater than their concerns. It's to be expected when you move next to public open space. It can turn into a playground, skatepark are any other community recreation space. I hate to see Councillors bending over for a few difficult residents.
Screen Name Redacted 7/20/2020 09:20 PM	I think additional help should be financial support and practical measures available for any residents that don’t benefit from the berm/fencing to acceptable levels
Screen Name Redacted 7/21/2020 02:18 PM	I have studied the JTA document and I am concerned that the options “earth berm with paling fence / sound mitigation wall” one (1) and three (3), all have designs that, by attempting to mitigate noise issues for residents in Calverton Place and Harmony Lane, will ultimately amplify noise levels towards a West and Northwest direction. There also seem to be no reference to properties on the West and Northwest side of the Oval: Table 5.2 – (Predicted Effective Noise Levels at Property Boundary) Table 7.1 – (Noise Mitigation of Noise

Walls). Although it may have been considered that the distance from the Skate Park to properties on the Western and Northwest side of the Oval negates any noise issues, this is not the fact. “Noise Mapping” does indicate Skate Park noise levels affect properties on the West and Northwest side of the Oval. All three of the noise attenuation options presented in the original report are of the one overall design. I am very concerned that the issue of noise funnelling, which was discussed with Council representatives at a meeting at the Council offices earlier this year, has not been taken into consideration in these designs. At the time of our meeting there seemed to be an understanding that any noise funnelling would be an unacceptable outcome. I formally request that added to the above designs a fourth option, that takes into consideration - the issue of noise funnelling effecting properties on the Western and Northwest side of the South Arm Oval.

Screen Name Redacted
7/24/2020 01:05 PM

Please wait until the trees that have been planted mature. It would be unsightly with any additions to the existing without giving the current situation time to fill the proposed need

Screen Name Redacted 7/26/2020 10:03 PM	As a homeowner, living within close promity to the skate park development, home lifestyle is severely impacted; the serenity is gone, outdoor living (sitting on the deck) using outdoor areas which are north facing is not possible when the park is in use as the noise is too intrusive and all privacy gone. My privacy inside my home has also been affected as the development can be seen in full view from bedroom, lounge and kitchen as the development sits high, framed above the fence line. The sound can also be heard inside with all windows and doors closed and requires use of constant indoor background noise (music) to mitigate. Since Covid working and studying full time from home has shown the effects more severely as they are felt seven days a week.
Screen Name Redacted 7/28/2020 07:17 AM	no
Screen Name Redacted 7/28/2020 03:37 PM	No

Optional question (52 response(s), 39 skipped)
Question type: Essay Question

Q5 Pick your child/children's top five favourite play activities when visiting a play space.

Question options

Swinging · Sliding · Spinning (eg. roundabout) · Rocking (eg. rocking animals)
Riding or scooting (eg. on a bike from home) · Nature play (eg. boulders, river rocks, logs, natural planting, creek beds)
Jumping and bouncing (eg. trampoline) · Climbing (eg. nets and walls) · Balancing (eg. beams and stepping stones)
Hide-away (eg. cubby houses and quiet spaces) · Gliding (eg. flying fox) · Digging (eg. sand pit)
Game / play panels (eg. OXO) · Rolling (eg. hills and mounds) · Crawling / Clamber (eg. tunnels and boulders)
Discovering (eg. clues and trails) · Hanging (eg. bars and frames) · Playable art (eg. sculptures to interact with)
Socialising (eg. social seating areas) · Ball play (eg. soccer, football)

Optional question (77 response(s), 14 skipped)
Question type: Checkbox Question

Q6 Are there any other play activities or features that should/should not be included in the play space?

Screen Name Redacted 6/11/2020 07:56 PM	My kids would like a pirate ship
Screen Name Redacted 6/14/2020 05:20 PM	Bmx hill’s for bikes
Screen Name Redacted 6/15/2020 08:47 PM	We have a 1 year old and would prefer a space that would allow for children her age to play now but also remain relevant as she grows.
Screen Name Redacted 6/15/2020 11:32 PM	Shade and seating
Screen Name Redacted 6/17/2020 07:51 AM	Anything that would contribute to higher noise levels.
Screen Name Redacted 6/18/2020 08:56 AM	A pump track please
Screen Name Redacted 6/18/2020 01:52 PM	I think the play space should be a decent size and the space used as efficiently as possible. It is a popular, central area already and a playground will make it even more popular. Play equipment like "Funky Monkey Bars" can include many popular activities in the one fixed piece of play equipment. South Arm local children are very active and would enjoy a small bike track with traffic intersections etc too. A water play creek and pump would be very popular too.
Screen Name Redacted 6/20/2020 12:52 PM	Climb prevention to stop small kids and teenagers from being able to climb on to the roof of the toilet block
Screen Name Redacted 6/22/2020 02:38 PM	water play
Screen Name Redacted 6/29/2020 12:48 PM	Anything that has a repetitive sound - eg ball bouncing (basketball hoops etc). Some nearby neighbours would be impacted by this more than the skatepark I reckon....
Screen Name Redacted	A pumping water system(ieith t's own water tank?) Like Midway pt,

7/04/2020 01:24 PM	Bellerive, dunalley,kangaroo bay,the domain etc.
Screen Name Redacted 7/04/2020 01:33 PM	Water play
Screen Name Redacted 7/04/2020 02:22 PM	Equal opportunity play equipment for the disabled, better toiler facilities, including disability toilets
Screen Name Redacted 7/04/2020 05:49 PM	Children prefer or flavor play in games so I don't know but I am ages.
Screen Name Redacted 7/06/2020 12:07 PM	Loved to have it all ha ha
Screen Name Redacted 7/06/2020 12:27 PM	Tyre swing
Screen Name Redacted 7/06/2020 01:44 PM	Visited the one at Geeveston last year, has some great activities for children includig some of the above, the children thoroughly enjoyed it.
Screen Name Redacted 7/06/2020 02:36 PM	I have no small children! But nature play is a great idea.
Screen Name Redacted 7/06/2020 03:47 PM	Natural/bush style with coastal vegetation.
Screen Name Redacted 7/06/2020 05:02 PM	I would have liked to add balancing to my preferred activity list! Given that there are several beaches and an oval within a short distance I would prefer not to see any of this specific space allocated to digging or ball play. Similarly the community garden and BBQ hut provide ample activity based socialising options already.
Screen Name Redacted 7/06/2020 06:06 PM	High noise impact activities (eg, basketball ring, hitting walls)
Screen Name Redacted 7/06/2020 09:00 PM	My kids love water play at parks. Nature play is by far the highest on this list. Would love a loose parts or adventure playground. In selecting playable art- I'm referring to sensory playgrounds- musical equipment etc rather than large plastic moveable equipment (eg OXO boards). The kids tend to like climbing when the net or wall leads

	somewhere- ie into cubby houses or tunnels- they don't really use net walls that are designed to climb up and straight back down.
Screen Name Redacted 7/07/2020 04:43 PM	Space for ball play as well.
Screen Name Redacted 7/07/2020 05:43 PM	Nature play included. Make it imaginative.
Screen Name Redacted 7/08/2020 02:06 PM	we have a beautiful beach, no need for a sandpit
Screen Name Redacted 7/10/2020 10:09 PM	Last time many years back talking to council officials on site of the Blessington St play area Request was for log built play ship (small version of battery point at that time) and a definite no to swings and rocking plastic things. Ended up with the swings and rocking plastic things
Screen Name Redacted 7/11/2020 06:10 PM	The location of the play space should be moved closer to the toilets, BBQ and carparking area. It makes sense. Parents can passively survey children and have closer access to other amenities. The location of the skate park being so for away toilet facilities and the carpark means we already witness skate park users urinating near the skate park and on local boundary fences.
Screen Name Redacted 7/11/2020 06:30 PM	The location of the play space should be moved closer to the toilets, BBQ and carpark. It makes sense. Parents will be able to passively monitor children closer to other amenities. The location of the skate park being so far away from easy passive surveillance means we already witness skate park users urinating near the skate park and on neighbouring fences
Screen Name Redacted 7/13/2020 08:10 AM	No sandpit. Too many cats that leave behind poop which can be fatal for unborn children (Toxoplasmosis)
Screen Name Redacted 7/13/2020 12:50 PM	This is not an area on which I have a view. Best left to those who have a stake init.
Screen Name Redacted 7/18/2020 08:54 AM	I'm a grand parent now and have two grandsons who pushed hard for the skate park and along with many of their friends enjoy their time spent there I think this group along with SAPRA would an ear far

	closer to the youth than myself.
Screen Name Redacted 7/18/2020 09:46 AM	I am a grand parent now and don't feel i have the right or the knowledge to speak of what the youth of today want if i wanted an answer to that question I would ask the youth that fought for years for the skate board park and SAPRA.
Screen Name Redacted 7/19/2020 05:17 PM	I think your options cover it all!
Screen Name Redacted 7/20/2020 09:07 PM	Pump track
Screen Name Redacted 7/20/2020 09:20 PM	Would be great to get additional trucks that kids can ride scooters and smaller bikes on around the skate park and oval maybe with some little mounds interns so it’s interesting like a pump track
Screen Name Redacted 7/21/2020 02:18 PM	N/A
Screen Name Redacted 7/21/2020 02:18 PM	N/A
Screen Name Redacted 7/26/2020 10:03 PM	I think having the childs play area closer to the BBQ area for supervision would be better, it would also be closer to amenities such as the toilet. Users of the skatepark often urinate around the skatepark and nearby residences fences which is within sight of the prosposed playground site
Screen Name Redacted 7/28/2020 07:17 AM	no
Screen Name Redacted 7/28/2020 03:43 PM	No rock walls

Optional question (40 response(s), 51 skipped)
Question type: Essay Question

Q7 What other supporting infrastructure does your family need to enjoy a visit to the park? (For example: seating, shade, accessible footpaths, bike racks, picnic tables, etc.)

Screen Name Redacted 6/11/2020 07:56 PM	good spots for adults to sit
Screen Name Redacted 6/12/2020 07:46 AM	Picnic tables. Shade cloth. Water tap for drinking. MUCH BETTER TOILETS. ASAP
Screen Name Redacted 6/12/2020 08:35 AM	Clay 400m running track (oval) - Like at the Domain
Screen Name Redacted 6/12/2020 01:54 PM	accessible footpaths, picnic tables and shade
Screen Name Redacted 6/12/2020 05:48 PM	Seating
Screen Name Redacted 6/14/2020 05:20 PM	Picnic tables/benches Shade over tables Footpaths!!
Screen Name Redacted 6/15/2020 08:47 PM	Basketball and Tennis wall, seating near the children's play space
Screen Name Redacted 6/15/2020 11:32 PM	All of these in the examples
Screen Name Redacted 6/17/2020 07:51 AM	Benches and a little bike trail or practice area as is at the Huonville park would be amazing.
Screen Name Redacted 6/18/2020 01:52 PM	Trees to have picnics under, picnic tables, bench seats in positions to provide excellent supervision of all areas.
Screen Name Redacted 6/20/2020 12:52 PM	More green space
Screen Name Redacted 6/21/2020 04:35 PM	accessible footpath, picnic table and shade
Screen Name Redacted 6/22/2020 02:38 PM	seating and shade

Screen Name Redacted 6/29/2020 12:48 PM	Seating and shade.
Screen Name Redacted 7/01/2020 02:08 PM	Seating, shade
Screen Name Redacted 7/04/2020 01:24 PM	Seating and shade would be appreciated.
Screen Name Redacted 7/04/2020 01:29 PM	Shade
Screen Name Redacted 7/04/2020 01:33 PM	Picnic tables
Screen Name Redacted 7/04/2020 02:22 PM	Better toilet facilities including , disability accessible, baby change areas, way more shade & bbq areas . PLEASE
Screen Name Redacted 7/04/2020 03:17 PM	Shade in summer, bike racks
Screen Name Redacted 7/04/2020 05:49 PM	Yes, it is essential of the family to watch children
Screen Name Redacted 7/05/2020 04:55 PM	Seating, shade, water fountain, bbqs
Screen Name Redacted 7/06/2020 12:07 PM	Seating and table and shade
Screen Name Redacted 7/06/2020 12:27 PM	Bike rack, shade sails, seating
Screen Name Redacted 7/06/2020 01:28 PM	Seating, shade, picnic tables
Screen Name Redacted 7/06/2020 01:44 PM	Picnic tables, seating, shade.
Screen Name Redacted 7/06/2020 02:36 PM	Seating and tables would be nice but we need to maintain the oval at a reasonable size for games so not encroach on too much of the

	original “oval”
Screen Name Redacted 7/06/2020 03:47 PM	Seating, shade.
Screen Name Redacted 7/06/2020 04:06 PM	Rubbish bins
Screen Name Redacted 7/06/2020 04:10 PM	Shade, seating and pathways
Screen Name Redacted 7/06/2020 05:02 PM	Picnic tables under trees are always a welcome sight. A good all-weather perimeter walking track would encourage people walking themselves and/or their animals
Screen Name Redacted 7/06/2020 09:00 PM	Seating and shade near the skatepark for parents would be great! Shade for kids to retreat to as well. It can get hot and sun burnt easily with light coloured concrete. Groups of parents often take younger children to skatepark while older kids are at school. Would be great to have seating close by for parents.
Screen Name Redacted 7/06/2020 11:00 PM	Seating, shade, picnic tables
Screen Name Redacted 7/07/2020 03:39 PM	A picnic table would be great
Screen Name Redacted 7/07/2020 04:43 PM	Picnic tables, the one that is there is well used.
Screen Name Redacted 7/07/2020 04:51 PM	Seating bike racks shade picnic table
Screen Name Redacted 7/07/2020 05:05 PM	Asphalt footpaths from opossum bay instead of Gravel, makes it hard for prams, bikes and scooters as is
Screen Name Redacted 7/07/2020 05:43 PM	Adequate seating and bike paths
Screen Name Redacted	picnic tables and seating

7/07/2020 06:42 PM	
Screen Name Redacted 7/08/2020 09:16 AM	I would like to see a set of AFL goal posts at the school end of the oval for weekend and after school use, not set up as a field just somewhere to have a kick and practice.And possibly a set of cricket nets in a suitable location around the ground
Screen Name Redacted 7/08/2020 09:42 AM	Seating, picnic tables, shade
Screen Name Redacted 7/08/2020 02:06 PM	all of the above
Screen Name Redacted 7/08/2020 04:40 PM	All of the above
Screen Name Redacted 7/08/2020 08:15 PM	Shade
Screen Name Redacted 7/08/2020 11:24 PM	Seating, shade, tables, bbq's, bike racks
Screen Name Redacted 7/10/2020 10:09 PM	seating
Screen Name Redacted 7/11/2020 06:10 PM	More trees generally and of greater density seperating play spaces and the skate park from nearby residents
Screen Name Redacted 7/11/2020 06:30 PM	More trees and bushes of greater density between the facilities - such as play spaces, and the skate park - from nearby resdients
Screen Name Redacted 7/12/2020 09:35 AM	Seating, shade and trees.
Screen Name Redacted 7/13/2020 12:50 PM	I would like to see the new toilets expedited as soon as possible. There are some old barriers around the barbecue which should be removed as the new bollards make them redundant. After the construction of the men's shed the car park needs to be sealed and parking spaces defined. I believe additional parking along the entrance road is proposed which will be a further benefit. When all proposed projects are completed I believe the Oval precinct will be a wonderful community asset with a multitude of applications.

Screen Name Redacted 7/16/2020 09:21 PM	Picnic tables and seating at intervals around the oval
Screen Name Redacted 7/18/2020 08:54 AM	Any or all of the above would be appreciated, especially shade with temperatures on the rise.
Screen Name Redacted 7/18/2020 09:46 AM	All or any of the above would be welcome especially shade with the rising temperatures.
Screen Name Redacted 7/19/2020 05:17 PM	seats, picnic tables, toilets, open grassy areas, shade
Screen Name Redacted 7/20/2020 09:07 PM	Seating and shade
Screen Name Redacted 7/20/2020 09:20 PM	All of those examples would be great especially seating and undercover area for summer sun protection
Screen Name Redacted 7/21/2020 02:18 PM	N/A
Screen Name Redacted 7/21/2020 02:18 PM	N/A
Screen Name Redacted 7/21/2020 07:28 PM	Seating and shade facilities would be great
Screen Name Redacted 7/24/2020 01:05 PM	shaded seating is always great
Screen Name Redacted 7/26/2020 10:03 PM	more trees please
Screen Name Redacted 7/28/2020 07:17 AM	Access to water e.g. drinking fountains
Screen Name Redacted 7/28/2020 03:37 PM	Seating for parents. Shade over pay area for younger children. Picnic tables

Screen Name Redacted 7/28/2020 03:43 PM	Seating, tables and shade and bike track
Screen Name Redacted 7/28/2020 05:30 PM	Seating picnic tables shade
Screen Name Redacted 7/29/2020 05:28 AM	shade and seating would be amazing and people and dog water fountain also
Screen Name Redacted 7/30/2020 05:35 PM	Fire fighting water storage.
Screen Name Redacted 7/31/2020 07:56 AM	Shaded and sheltered play areas (high UV in summer and rainy days), picnic tables
