THE DRAFT CREMORNE COASTAL RESERVE ACTIVITY PLAN RECOMMENDS:

- >> Rationalise tracks across dunes and coastal vegetation and close informal tracks
- >> Owners to remove dinghies and kayaks off the dunes and store on their own properties
- >> Plan to protect Pipe Clay Esplanade vegetation by closing unapproved lagoon access and parking
- >> Request community support to monitor for suspected Chilean needle grass weed
- >> Install signage to prohibit dogs and horses on north end of Pipe Clay Lagoon
- >> Plan and construct a Cremorne Avenue track
- >> Plan and construct Cremorne Spit track
- >> Develop a Cremorne Village Landscape Plan

STAY WITH US...

Council invites your comments on the draft Plan. The Plan will guide the community and Council as we work together to improve the management of the Reserves. You can find the draft plan at **www.ccc.tas.gov.au/consultation**

Your Community and Council working together to care for our Reserves

In the autumn of 2018, Clarence City Council asked the community about the Cremorne Coastal Reserve ... these are the results.

Clarence City Council

TASMANIA

	EVALUATION				DESCRIPTION	COMMUNITY COMMENTS
	OUTSTANDING	VERY GOOD	PASS	CAN DO BETTER	**CREMORNE COASTAL RESERVE**	
LOCATION AND LANDSCAPE					Popular beachside village with scenic coastal headlands.	
CULTURAL HERITAGE					Originally occupied by the Mumirimina band of the Oyster Bay Nation.	*Please protect Aboriginal middens sites during track work*
VEGETATION					Remnant coastal and Morrisby gum woodlands and saltmarsh areas.	*Morrisby Gum woodland is iconic to Cremorne area*
ANIMALS AND BIRDS					Crucial Shorebird habitat around the lagoon's sand flats and saltmarshes and on the beach.	*It's lovely to see the terns diving*
ACCESS AND CONNECTIVITY					Good beach accesses. Coastal tracks linking to Lauderdale and South Arm Highway are planned.	
RECREATION & USAGE					Tracks in the reserves are enjoyed for walking, biking and dog walking.	*We are looking forward to the new coastal tracks!*
THREATS					Weeds, lagoon erosion, dogs and horses on sandflats, unapproved tracks and watercraft on sensitive dune vegetation.	*Traffic speed along Cremorne Avenue is too fast!*

Stay with us on the journey of caring for the Cremorne Coastal Reserve. Your comments are highly valued!
